My doTERRA oil guide to aromatherapy classes online

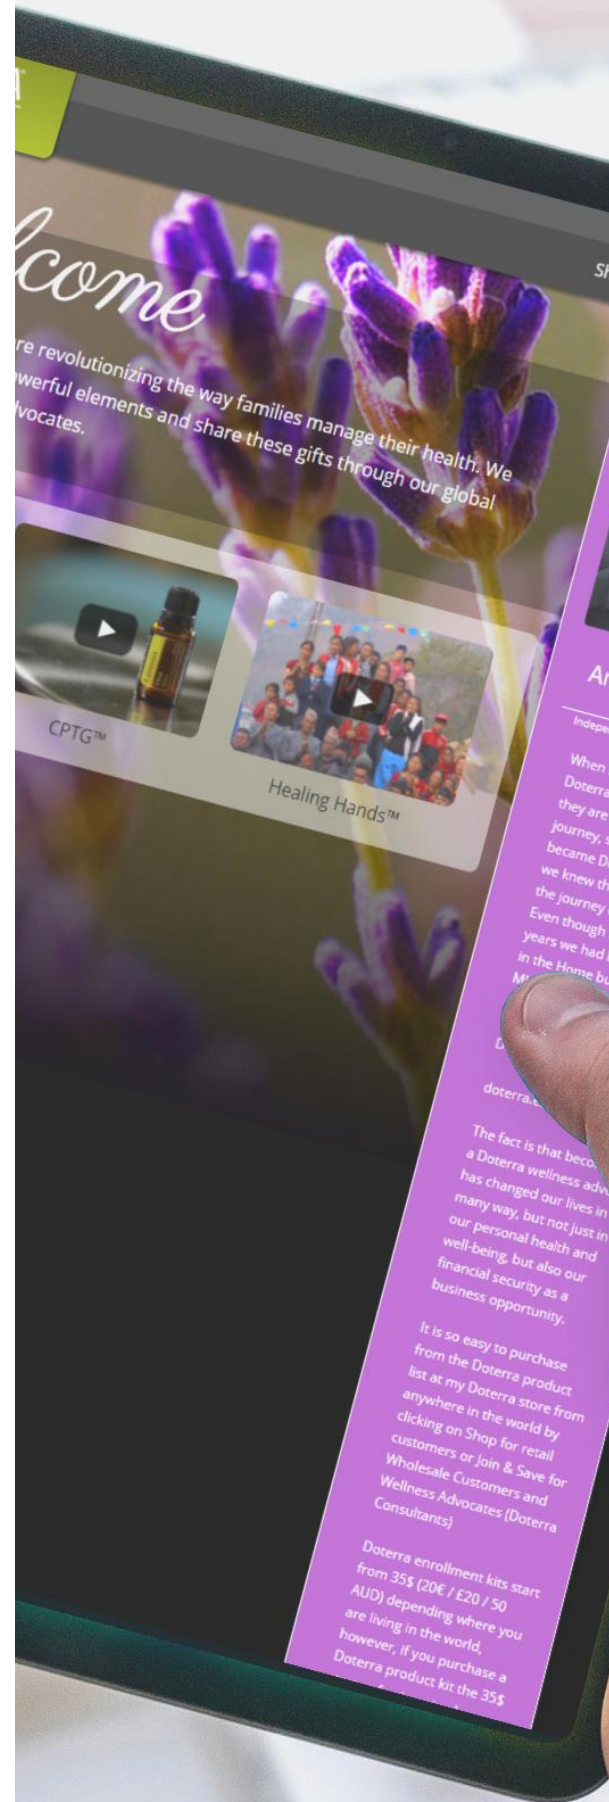

BY STEVEN JACKSON

The doTERRA education program is the least reported reason for joining doTERRA and becoming a wellness advocate or wholesale customer and that is a real shame.

Regardless if you want to build doTERRA into a flourishing business or simply use essential oils in your daily life. Developing your knowledge of essential oils and their uses is an important part of your journey.

To start with, if you are not just yet a doTERRA member quickly download a FREE doTERRA essential oils guide on the download button below. It will give you lots of information about the oils and their uses. There are also other details that will give you a clear picture weather you want to become a doTERRA wellness advocate or wholesale customer.

doTERRA oil guide to becoming a Wellness advocate or wholesale customer

BY STEVEN JACKSON

So, it is in your mind to join doTERRA?

But, you want to understand what the difference is between becoming a wellness advocate or wholesale customer. As you can imagine, this is a question I am asked a lot. So I felt I should clarify a few important points about the doTERRA membership options.

Why become a doTERRA wellness advocate?

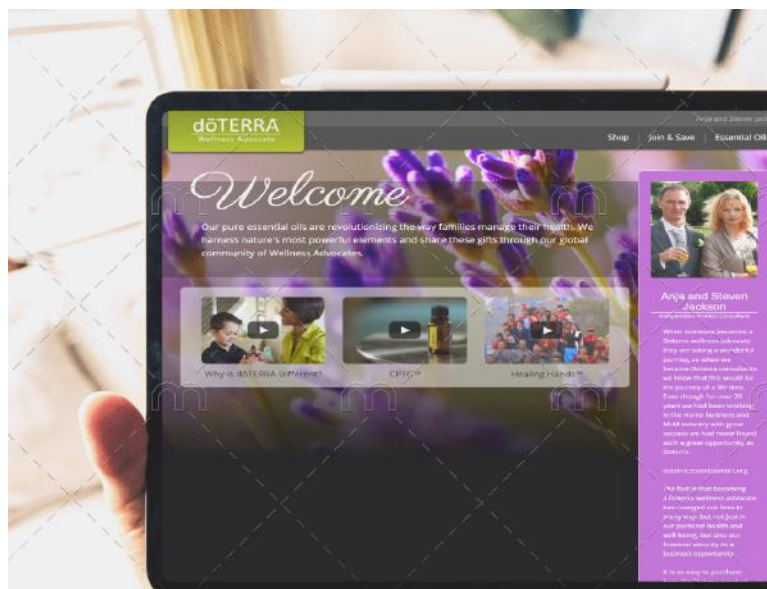

In simple terms, being a wellness advocate means starting an essential oils business. In a more deeper sense it means that there is something in your mind that telling you, you want more from life.

Such as:

- You want more money
- You want to start a new career
- You want to build a business that is yours
- You want to be successful
- You want to help others to be successful
- You want to educate others towards a healthier lifestyle

The benefits are:

- 25% off all doTERRA products
- Earn product point via the loyalty reward program
- Earn shipping reward points
- You can qualify for the FREE product of the month
- You can earn commissions for your sales and your downlines sales
- You will get a FREE personalized webshop and back office

Why become a wholesale customer?

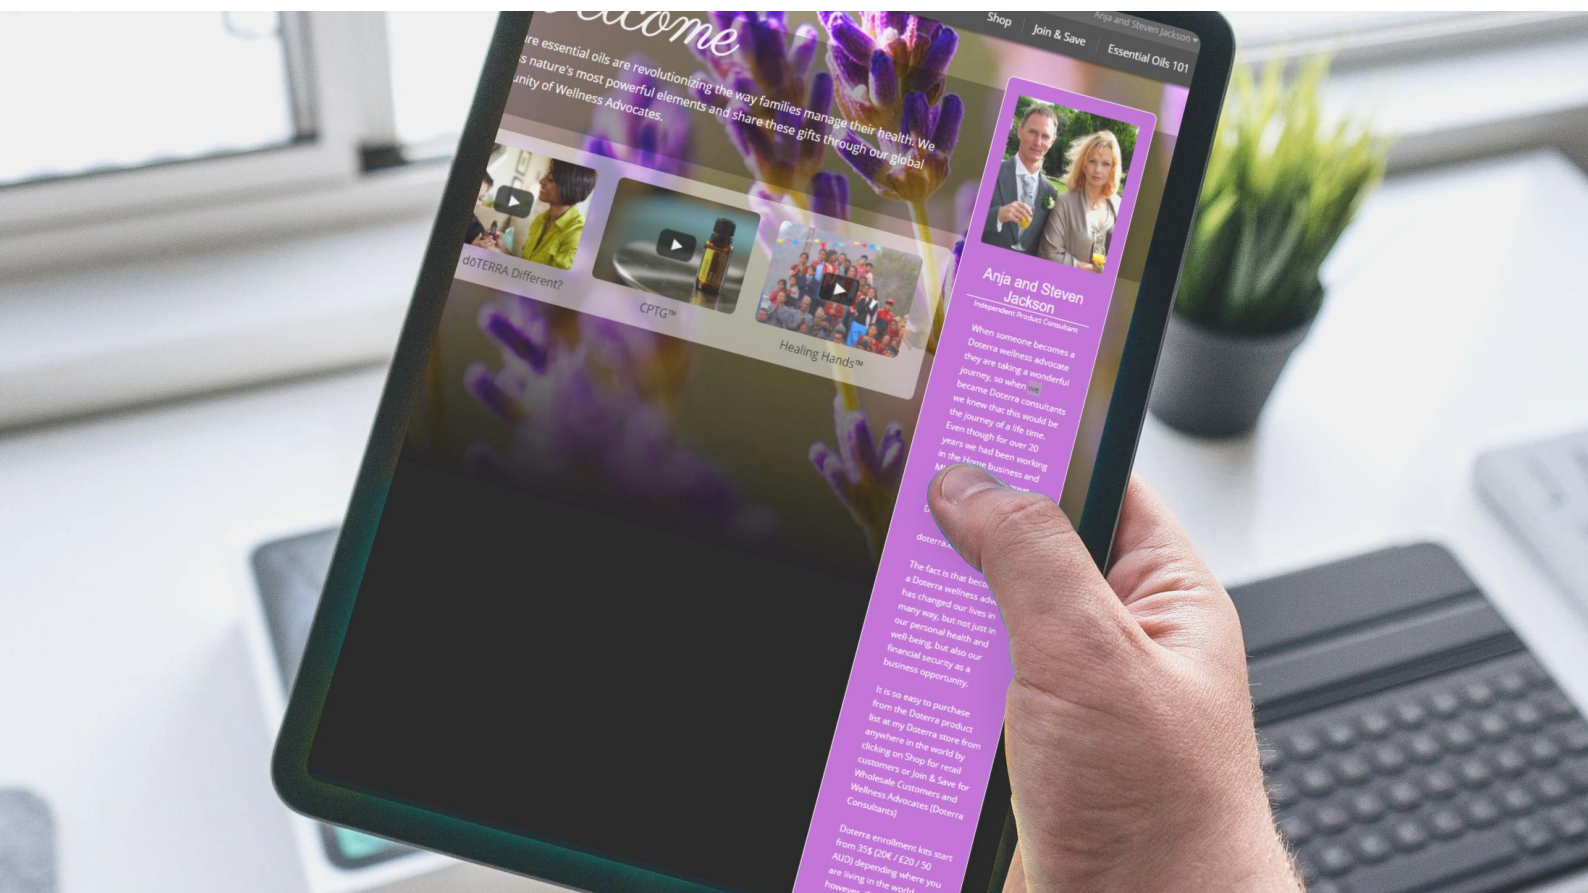

The idea of becoming a wholesale customer is very different to being a wellness advocate. In my opinion, it comes down to responsibility. A wellness advocate has a lot more responsibilities in relation to their business and their sales team. On the other hand the wholesale customer only wants to gain the benefits from getting doTERRA products at the wholesale price.

The only thing many wholesale customers seem to be interested in is learning more about essential oils and their uses. Again, I normally suggest the doTERRA education courses rather than listening to the views and opinions on social media platforms which are highly unreliable.

However, many wholesale customers after using the oils start sharing them with family and friends. At that point many feel the need to build a business and upgrade for free to a wellness advocate.

The benefits are:

- 25% off all doTERRA products
- Earn product point via the loyalty reward program
- Earn shipping reward points
- You can qualify for the FREE product of the month

doTERRA introduction to essential oils education

BY STEVEN HACKSON

The doTERRA education is so good that I often get people asking me if they can start the education without coming a doTERRA member.

Well, I am afraid not!

This education is exclusively for doTERRA members. This may seem unfair, but the course are highly subsidized and developed by doTERRA. In my view, it is unfair for a non member to benefit from such a high standard and unique education.

Are there other aromatherapy classes online apart from doTERRA?

I am sure there are, but I doubt that the price or the quality is even close to the doTERRA certification program.

Your only real choice is to join doTERRA and become a member.
